Explain short (2-3 sentences) why you choose above university, e.g. why do you want to go abroad and study at the partner university? What do they offer that is interesting for you and what is your goal for the exchange?

I would like to study here since I am fascinated by the Asian culture and this university seems to have courses fitting for me. Prior to looking for an exchange spot I have heard a lot of good things about this country from friends. My goal for this exchange is to get international contacts, to work outside of Sweden after my studies.
