Name of student: Emil
Bengtsson

Study Programme at Linköping University:
Master of science in engineering biology

Intended specialization at Linköping University: TB Master in industrial biotechnology and production

Country: Australia

Partner university: Queensland University of Technology **School/ Faculty:** Faculty of Science, Engineering and Health

Exchange Period: Autumn Spring **Full year**

If you chose full year, would you like to be nominated to one semester, if there is only one semester left? No Yes Which semester: Autumn Spring

Details of the proposed preliminary study plan at Partner University

Course code and course name	Semester (autumn/spring)	Credits
BVB330 Synthetic Genomics	Autumn	7,5
BVB201 Biological Processes	Autumn	7,5
EGB160 Process Principles	Autumn/Spring	7,5
LQB682 Biomolecular Design	Autumn	7,5
LQB462 Microbial Diagnostics	Autumn	7,5
MXN600 Advanced Statistical Data Analysis	Autumn	7,5
MXB261 Modelling and Simulation Science	Autumn	7,5
MAB141 Mathematics and Statistics for Medical Science	Autumn	7,5
SEB113 Quantitative Methods in Science	Autumn/Spring	7,5
EGB263 Process Systems	Autumn	7,5
EGB264 Engineering Chemistry	Autumn	7,5
EGB364 Process Modelling	Autumn	7,5
EGH411 Sustainable Chemical Engineering in Practice	Autumn	7,5
EGH438 Biomaterials	Spring	7,5
ENN515 Total Quality Management	Spring	7,5

Explain short (2-3 sentences) why you choose above university, e.g. why do you want to go abroad and study at the partner university? What do they offer that is interesting for you and what is your goal for the exchange?

I have heard a lot of good things about this university and its wide availability of courses which suits me good. Why I would like to go here is due to the Australian culture and people, which from my previous experiences have not disappointed me at all. What I am looking to get out of this exchange is a good cultural experience and at the same time good studies, in order for me to work abroad in the future.
